In rounding off figures in several places fractions exceeding one-half have been reckoned as equivalent to one and those equal to or less than one-half have been left out of consideration; in consequence, a slight discrepancy may sometimes occur in additions and subtractions, especially in the case of sums of money.

5. Important Events.

Arrival of two Maharaj Kumars

15. The two Maharaj-Kumars Shri Yuvaraj Maharaj and Shri Shivaji Maharaj and their four companions after having completed their course of education, in England sailed for India, accompanied by Mrs. H. M. Irwin, on the 10th July 1915 *enroute* America, China, Japan, Columbo, Madras &c. arriving at Kolhapur on the 10th of October 1915 by a special train. They had a happy voyage and journey. They were accorded a hearty welcome at the Station on their arrival and they all drove into the town in full procession in the State elephant car with a view to pay their homage to the Goddess Ambabai. *Gudics* were erected in front of every house and flags of different colours were seen flying along the streets. All public buildings were decorated on this occasion. The day was observed as a holiday. All offices and schools were closed on this joyous occasion. A great many people assembled to witness the functions in connection with the reception of the Kumars.

Education of Kumars

16. The two Kumars and Mrs. Irwin, were presented a number of congratulatory addresses on their safe arrival after an absence of three years in a foreign country. They proceeded to Mahableshwar on the 8th November 1915 to pay their respects to His Excellency Lord Willingdon, the Governor of Bombay and returned to Kolhapur on the 16th. They left for Allahabad on the 9th December 1915 to join the Ewing Christian College where they are learning agriculture and other allied sciences. The party arrived here on the 19th April 1916 during their summer vacation.

Darbar in the Residency

17. A Darbar was held at the Residency Kolhapur on the 27th January 1916 in honour of the high distinction of honorary Colonel in the British army conferred upon His Highness by His Most Gracious Majesty the King-Emperor George V on the new year's day. No honor is better appreciated by His Highness than this especially as he is appointed Colonel of a Maratha regiment.

War and Contribution.

18. The great European war has entered upon its second stage and it is yet uncertain when it will end. The allies are determined to fight until German militarism is crushed, so that the peace of the world may not be disturbed for generations to come. In addition to contributions already made His Highness on behalf of his subjects expressed his keen desire to present to Government five ambulance cars for use in the war. Government were pleased to accept this offer and accordingly a sum of Rs 39,527 collected by voluntary subscriptions was remitted for the purchase of the cars.

Anniversary day of the war

19. On the 4th of August 1915, the aniversary day of the declaration of war by his most Gracious Majesty King-Emperor George V, special services were held throughout the State by all the different communities in their respective places of worship and prayers were offered for the speedy termination of war bringing victory to the allied arms and for the brutal spirit of German militarism being crushed for ever.

Demise of H E Lord Kitchner

20. The sad news of the Imperial loss on account of the death of H. E. Lord Kitchner, while enroute to Russia, was received on the 9th of June 1916 with the deepest grief by the subjects of the State and all offices and schools were closed for two days as a mark of respect for the late Field-Marshal.

6. General Review.

21. The monsoon set in rather late, after the middle of June, but it made an excellent beginning and was sufficient for the commencement of the sowing operations. The fall in July, the wettest month of the year, was excessive and it retarded the agricultural operations and damaged seedlings in some places. August rain was fairly satisfactory, but it gave relief to the crops suffering from excessive moisture. The fall in September was very opportune and it maintained the kharip crops in good condition and gave a good start to the sowing of rabi crops. Both kharip and rabi crops except rice made a good progress under the favourable rains of October. The fall in November injured the cotton and tobacco crops, but was on the whole very useful to rabi crops. On the whole the season was satisfactory.

22. A favourable season resulted in a decrease in the price of staple food grains, jwari, gram, tur and wheat. Price of rice remained unchanged. Cotton was sold at a higher rate at the time of harvest so that the cultivators did fairly well. The cultivators obtained good prices for their produce, which enabled them to pay without difficulty the land revenue of the current year. Scarcity of labour continued and wages showed no tendency to decline, therefore the condition of the labouring classes was good. Fodder was sufficient and it was sold at fair prices. There was a decrease in the number of crimes, registration transaction and also in the original civil suits. Mortality showed a slight decrease and the birth rate showed a slight increase. 89 schools being closed on account of plague there was a drop in the number of school-going children but there was an increase in the number of students learning English.

2. From the above statement it will be seen that the favourable season brought about a general extension in the total cropped area. The gross and net cropped areas showed a rise of about 3.8 per cent. The area cropped more than once also expanded by about 21,660 acres during the year. The cultivation of cotton and groundnuts showed a decline owing to the extended cultivation under food crops in accordance with

general instructions given to cultivators and the fall in their prices. The areas under non-food crops showed a decline but those under food crops increased and more than made up the deficit. The areas under pulses advanced by about 13,000 acres while those under cotton and oilseeds decreased by about 36,000 acres during the year. Under the stimulus of high prices, the cultivation of sugarcane is extending year by year and showed a further advance of about 2,000 acres.

Area under irrigation.

3. The total area irrigated was 79,860 acres during the year, of which 39,845 acres were irrigated from the water of wells, 39,783 from that of rivers and 232 from that of tanks.

Wells and budakis.

4. The number of Pacca wells increased by 157 and that of Kachha wells decreased by 357 during the year. The figures of the last year were 10,848 and 1,332 respectively.

2. The King Edward Agriculture Institute.

5. This institution has been removed from the city to Sonatalli during the year. All the agricultural implements have been kept there.

6. There has been no striking departure during the past year in the matter of improved implements for cultivation but the work of popularising them has continued on an extended scale. The effect of iron ploughs is now becoming well marked in many tracts in the improved cultivation that is visible.

7. The agricultural demonstrator has been sent to give instructions in building improved furnaces and in gul making. Good progress was made by him in popularising implements, distributing seed and helping cultivators to adopt methods of cultivation with which they were unfamiliar.

8. The expenditure on this institution came to Rs. 1,238 against Rs. 1,343 in the previous year.

9. This institution receives the annual grant of Rs. 1,000 from the Darbar.

3. Plantation.

Coffee.

10. The area under coffee plantation was 4 acres and 18 gunthas as last year, but its out-turn increased from 108 lbs to 543 lbs. owing to the favourable rainy season. The price of the produce also increased from Rs. 41 to Rs. 204. Coffee plants numbered 2,720.

Cardamom.

11. The area under cardamom remained unchanged. It was cultivated in one acre and 22 gunthas. But its out-turn decreased from 68 lbs. to 40 lbs. and the sale proceeds from Rs. 212 to 123 during the year.

Tea.

12. The tea plants 84,235 in number covering an area of 10 acres, gave a crop of 366 lbs. against 288 lbs. last year showing an increase of 78 lbs. The amount derived from its sale increased from Rs. 108 to Rs. 144.

13. Combodia cotton was experimented for the last two years in Shirol taluka, but the soil being unsuitable yielded a very poor crop and its cultivation was discontinued.

14. The following table gives the average out-turn of the principal crops by percentages (100 denoting a normal crop.)

4. Agricultural Stock.

15. Appendix XX shows the number of cattle during the year and the year preceding. Horned cattles showed a decrease while the other animals showed an appreciable increase. Decrease was seen in both the ploughs with two bullocks and four bullocks. Riding carts increased by 142 while the loading carts decreased by 143 during the year. The figures of these carts in the previous year were 1,631 and 19,313 respectively.

5. Breeding Operations.

16. The number of animals in camel herds at the beginning of the year was 306. The addition of young stock during the year was 21 in all and 48 died leaving 237 camels at the close of the year. **Camel breeding.**

17. The number of mules and mares in Vagjai and Raibag Paddocks was 69 in the beginning. 42 mules and mares were added during the year and there were 15 births making the total number of 126 animals. Out of which 11 died and 14 were given as presents, leaving a balance of 101 at the end of the year, of which 18 were mules and 83 mares. **Mule breeding**

2. Weather and Crops.

18. The monsoon set in rather late, after the middle of June, but the current was very weak. However the cultivators all over the State commenced sowing operations with the moisture the soil had received, hoping for more to give life to the seedlings that might spring up. After a few light showers for five or six days adequate monsoon rain relieved the anxieties of the cultivators. This downfall favoured the growth of crops in a marked degree. The first two weeks of July passed away

without rain but it helped the standing crops to flourish. Towards the end of July the rain was continuous and well distributed. August rains however checked the progress of the standing crops owing to excessive moisture and the outlook seemed serious. Fortunately a break followed after the middle of August. It gave relief to the crops suffering from excessive moisture. The fall in September was very opportune and generally sufficient. It maintained the standing kharip crops in a healthy condition and gave a good start to the sowing of rabi crops which was vigorously pushed on under the favourable rains of October. The fall in November injured the cotton and tobacco crops, but was on the whole very useful for the rabi crops which promised well. On the whole the season was satisfactory.

19. The highest rainfall recorded in the State was 229.7 inches at Bavda and the lowest at Raibag being 23.64 inches. The greatest rainfall in 24 hours was at Bavda where 13.16 inches were gauged on the 29th of July 1915.

Temperature.

20. The mean temperature for the year was 77°.83′ against 83° last year. May was the hottest month of the year, its mean temperature being 70°.9′ as compared with 69°.58′ in the preceding year. The mean maximum and minimum temperatures in the shade were 69° and 57° against 80°.9′ and 62°.6′ last year respectively. The highest temperature recorded during the year was 95° on 12th April 1915 and the lowest was 44° on 6th December 1915. The figures of the last year were 101° on 22nd May and 44° on 25th December 1914 respectively.

1. Prices.

21. A favourable season resulted in a decrease in the price of the staple food grains, the fall being most marked in jwari, the price of which in Shirol and Hatkanangle fell as low as 13 seers per rupee, whereas the lowest price recorded in the previous year was 9 seers per rupee. Bajri showed a substantial decrease but rice showed a slight increase in price. There was a heavy fall in cotton but a recovery took place at about the time of harvest so that the cultivator did fairly well. The tightness of the market in the case of gram, tur and wheat in the previous year, relaxed during the year and they were sold at a cheaper rate. The out-turn of Jagree was better, but it maintained the same rate as the last year.

2. Wages.

22. In spite of the decrease in the price of food grains, the scarcity of labour continued and wages showed no tendency to decline from the high level reached in recent years. On an average, wages for unskilled labour were about annas 5 and for skilled labour annas 12 per diem in the rural parts while in the large towns they were as high as annas 7 and annas 14 respectively. Everywhere in the State the demand for labour was as keen as ever and not-withstanding the high wages offered a sufficient supply of labour could not be obtained.

3. Forest.

Area.

23. The area of reserved forest increased by 117 acres and that of protected forest by 179 acres owing to the inclusion of lands under Madale

village settlement. The area now under forests shows a net increase of 296 acres, with a total of 491 square miles and 287 acres.

Changes.

24. The place of the Assistant Forest Officer was abolished and the forest department was placed under the direct control of Meherban Pirajirao Bapusaheb Ghatge C. S. I., C. I. E. (His Highness' brother.)

25. The number of forest offences reported during the year was 95 against 97 in the previous year. Out of 95 cases, prosecutions numbered two and the rest were decided departmentally. The amount of fine collected decreased from Rs. 1 581 to Rs. 933 during the year.

Fires.

26. There was a marked decrease in the area burnt by fire during the year. There were 12 fires against 17 last year. The area burnt decreased from 2,614 acres to 777 acres and the estimated damage from Rs. 3,003 to Rs. 17 during the year.

Free grant.

27. The value of timber given free rose from Rs. 227 to Rs. 1,301 during the year.

Plantation.

28. The tea plantation did not fare well while the aloe plantation was in a satisfactory condition.

Hirda.

29. Owing to the favourable season, the yield of hirda crop inereased from 9,064 khandis to 18,047 and the revenue too from Rs. 83,314 to Rs. 1,36,771. The expenditure also increased from Rs. 41,910 to Rs. 81,875 during the year. On account of war the selling price of hirda decreased from Rs. 9-8-0 to Rs. 8 per khandi during the year.

Cost.

30. The total receipts from forest revenue increased from Rs. 1,07,524 to Rs. 2,12,893 while the expenditure decreased from Rs. 1,38,371 to Rs. 57,383 during the year. The increase in the revenue was due to the large sale of hirda during the year and the decrease in expenditure was due to some of the amounts having been not brought to account during the year.

31. The number of animals pastured in the Reserved and Protected forests of the State increased from 23,405 to 28,664 and the fees derived from the grazing of these cattle from Rs. 4,778 to Rs. 5,849 during the year. Among 28,664 animals, goats and sheep numbered 19,440 and cows and oxen numbered 9,224.

4. Public works.

32. The total expenditure on Public works during the year was Rs. 3,78,984 against Rs. 3,26,011 last year, of which Rs. 1,75,811 against Rs. 1,82,796 were spent on original works, Rs. 1,34,398 against Rs. 86,365 on repairs, Rs. 41,290 against Rs. 39,542 on establishment charges, Rs. 25,165 against Rs. 15,803 on miscellaneous works and Rs. 2,320 against Rs. 1,505 were spent for the purchase of tools and other articles.

5. Irrigation.

Establishment.

33. The work of Radhanagari tank was in progress under the supervision of Meherban Pirajirao Bapusaheb Ghatge C. S. I., C. I. E. Jahagirdar

Ginning factories.

41. There were 7 ginning factories in the State, 3 at Kolhapur, 1 at Ichalkaranji, 1 at Gadhinglaj, 1 at Chinchli and one at Shirol Road. They all worked for 3 months only. This year the yield of cotton crop was poor, so the managers did not get plenty of cotton for the consumption of their factories.

Groundnut factories.

42. The number of groundnut factories decreased from 11 to 7 for want of sufficient work. All these worked for three months only during the season of groundnuts.

Dying factory at Ichalkaranji.

47. It will be seen from the above that the imports rose by 94,596 maunds and the exports on the other hand decreased by 44,537 maunds over the last year's figures.

7. Imports.

48. Among the imports improvement was visible under the heads grain, oil and salt. The import of grain rose from 2,48,461 maunds to 3,31,918 maunds owing to the better harvest during the year. The import of salt advanced from 38.354 to 46,581 maunds due to the extensive purchases made by merchants anticipating the imposition of excise duty from the beginning of the ensuing year. The quantity of oils imported was 77,762 against 61,723 maunds in the previous year. This increase was

due to the small quantity of the commodity held in stock by merchants. The import of metals fell from 31,988 to 24,168 maunds on account of the rise in the price of these articles. The import of cotton also decreased from 25,197 to 20,980 maunds owing to the failure of the crop during the year. On the whole the imports show that the trade is on the increase.

EXPORTS.

49. On the export side the most noteworthy feature is the heavy export of jagree owing to the abundance of the crop. It rose from 3,24,119 maunds to 4,25,024 maunds during the year. The decrease was the greatest in the case of myrabolums, only 67,311 maunds being exported against 1,35,517 maunds in the previous year. This drop was due to the failure of the harvest. The export of oilseeds decreased from 4,37,758 to 3,42,545 maunds. This large decrease was due to less area being utilised for this crop as it afforded poor prospects of profit on account of the war. The export of tobacco dropped from 24,916 maunds to 18,242 owing to the damage done to this crop by excessive rain in the previous year.

8 Kolhapur State Railway.

50. The actual capital outlay up to the close of the year was Rs. 23,26,251. The gross earnings during the year were Rs. 3,24,162 showing an increase of Rs. 13,574 over the last year's figure, while the expenditure decreased from Rs. 1,72,139 to Rs. 1,67,939. The proceeds from coaching traffic amounted to Rs. 1,99,649 and those from goods traffic to Rs. 1,22,145. The figures for the last year were Rs. 2,00,003 and Rs. 1,00,585 respectively. The net earnings of the year also rose from Rs. 1,38,449 to Rs. 1,56,223. The percentage of net earnings on the capital outlay was Rs. 6.5 during the year.

9. Post and Telegraph offices.

51. The post and telegraph offices in the Kolhapur State are under the direct control of the Postal and Telegraph Department of British Government. The total number of Post offices at the close of the year was 45. Of these 13 were sub-offices and the rest branch offices. 10 were combined offices. In rounding off figures in several places fractions exceeding one-half have been reckoned as equivalent to one and those equal to or less than one-half have been left out of consideration; in consequence, a slight discrepancy may sometimes occur in additions and subtractions, especially in the case of sums of money.

15. On the 4th August 1916, the anniversary day of the declaration of war by His most Gracious Majesty King-Emperor, against Germany special services were held throughout the State by all the different communities in their respective places of worships and prayers were offered for the speedy termination of the war bringing victory to the allied arms and for the brutal spirit of German militarism being crushed for ever.

War-Loan and Contributions

16. In order to give effect to the resolution in connection with the War Loan opened by the Government of India, a meeting of the citizens and rayats of Kolhapur was held at the Palace Theatre on the 14th March 1917 under the presidency of Colonel Condon, then Incharge Resident Kolhapur and Political Agent S. M. C. States. His Highness graced the occasion by his presence with the two Maharaj Kumars, Sardars, Jahagirdars and officers. The Theatre was crowded to suffocation. Great enthusiasm prevailed. All Mamledars Mahalkaris, and Karbharis of Feudatory Jahagirs were desired to attend so as to be able to hold similar meetings within their respective jurisdictions to impress upon the minds of the people the advisability of investing their money in the War Loan and to collect the subscription on a systematic basis. At this meeting His Highness announced his intention of investing 5 lacs of rupees in the WarLoan. This had a very salutary effect and every one responded to the call heartily and througout the State all people rich and poor are offering sums for investment in the WarLoan and it is expected a fairly large amount will

be contributed by the state towards the loan, the work in connection with it having been entrusted to Yuvaraj Shri Rajaram Maharaj and Meherban Pirajirao Bapusaheb Ghatge, C. I. E, C. S. I. Jahgirdar Kagal (Sr.) who are doing it with great zeal and earnestness. Accordingly the amount of subscription to the Indian War Loan by the Kolhapur Darbar, Feudatory Jahagirdars and subjects in the Kolhapur Principality has come up to Rs 19,34,617, the particulars of the items being as under:—

5,00,000	subscribed	by His Highness.
54,200	,,	,, Her Highness.
2,25,455	,,	,, Feudatory Jahagirdars.
11,54,962	,,	,, subjects of the state.
Rs 19,34,617		

Recruiting.

17. The enlistment of recruits in the State has engaged the special attention of His Highness. There was some misunderstanding about it in the beginning among ignorant people which created difficulties. But steps were taken immediately to remove it. Among them was the appointment of two officers on special duty in connection with recruiting work. Besides a notification has been issued affording facilities for recruitment in order that the Marathas and other war-like classes in the State may rally in great numbers and maintain their war like prestige and the loyal traditions of this State. The facilities afforded were as follows:—

(i) The work of village officers who collect not less than 25 recruits will receive special recognition by the presentation of a sword of honour and a shield to the Patil and a silver medal to the Kulkarni; and the privilege of an invitation to the Dasara Darbar will be conferred on them by Sanad.

(ii) Any person who will bring in recruits will be given a reward of Rs 10 for every combatant recruit and Rs 3 for every non-combatant recruit and a silver medal if he succeeds in getting 25 or more recruits.

(iii) Combatant recruits will be given Rs 40 each to enable them to arrange for their families before they leave. Non-combatant recruits will receive Rs 20 each.

(iv) State servants who will go as combatant recruits will receive one-half of their pay during their absence on military service. They will be allowed to rejoin their service after their return and the period of their absence will be counted towards pension.

Contribution to War Fete at Bombay.

18. His Highness has contributed some articles, carriages, etc, of the value of Rs 5,318 to the War-Fete at Bombay and was present to witness it, which was a brilliant success.

Contribution to Lucky Bag at Hyderabad.

19. His Highness has also contributed Rs. 1,000 to the Lucky Bag at Hyderabad opened by Mrs. Fraser.

20. Besides, the Technical School Kolhapur was placed at the disposal of Government for such use as could be made thereof in the manufacture of munitions &c.

7. General Review.

21. The monsoon was very late in coming, after the middle of June, but it made an excellent beginning and was sufficient for the commencement of sowing operations. The fall in July was timely and well distributed, helped the seedlings to grow and much cotton was sown. The months of August and September saw timely and sufficient falls of rain, as a result whereof, a good all round crop was assured. October rains favoured both kharip and rabi crops except rice and they were in a blooming condition. The fall in November at the time of harvest injured all the kharip crops except cotton but it was very useful to rabi crops except tobacco and groundnuts. On the whole the season was a fair one. Owing to the damage done to crops at the time of harvest, there was a decrease in the prices of food stuffs, but after about two months, the market became strong and jwari, bajri, gram, rice and cotton were sold at a higher rate. The cultivators obtained good prices for their produce, which enabled them to pay without difficulty the land revenue of the current year. Scarcity of labour continued and wages showed no tendency to fall, therefore the conditition of labouring classes was good. Fodder was sufficient and was sold at fair prices. The condition of agricultural stock was good. There was no cattle disease during the year. Artizans and weavers did well. There was a decrease in the number of crimes, but civil suits and registration transactions increased in number. It is satisfactory to note that the number of school-going children was on the increase.

2 From the above statement, it will be seen that the total cropped area increased by about 26,000 acres this year owing to the timely and favourable rainfall at the beginning of the year. Under the incentive afforded by high prices in the last two years, the cultivation of sugarcane was nearly double this year. There was a marked increase in the area covered by cotton owing to its keen demand in the foreign markets, while Jwari, Gram, Tur and other crops showed some decrease and Paddy, Bajri, wheat and Tobacco showed a small increase in the area cropped. Cropped Area.

Area under irrigation.

3. The total area irrigated was 55,843 acres, of which 21,431 acres were irrigated from the water of wells, 34,270 from that of rivers and 142 from that of tanks.

Wells & budakis

4. The number of Pacca wells remained the same as last year viz. 11,005 while that of Kachha wells increased by 65 during the year. The figure of the last year was 975.

2. The King Edward Agricultural Institute.

5. As mentioned in the last year's report, all the agricultural implements have been kept at Sontali farm, where demonstrations were held and lectures delivered to farmers. As usual the agricultural demonstrator was on tour to give instructions in building improved *chulans* and in *gul* making.

6. The cost in connection with this institution amounted to Rs. 1,077 during the year against Rs. 1,238 last year. This institution receives an annual grant of Rs. 1,000 from the Darbar.

3. Tea plantation at Panhala.

Tea.

7. The area under tea plantation increased from 10 acres and 1 gunta to 11 acres and 21 guntas and the number of plants also from 24,735 to 29,235 during the year. But owing to later rains its out-turn decreased from 366 lbs to 333 lbs. The amount derived from its sale increased from Rs. 144 to 166.

Coffee.

8. The area covered by coffee plantation and the number of plants in it remained unchanged during the year. The area was 4 acres and 18 guntas and plants numbered 2,720. But its out-turn decreased from 543 lbs to 135 lbs and its sale proceeds from Rs. 204 to Rs. 135.

Cardamum.

9. The area under cardamum was the same as last year viz. 1 acre and 22 guntas. But it gave a crop of 83 lbs showing an increase of 23 lbs over the last year's figure. The amount received by its sale was Rs. 260 against Rs. 187 last year.

10. The following statement gives the average out-turn of the principal crops by percentages (100 denoting a normal crop).

Ploughs with two and four bullocks and loading carts increased by 638, 974 and 1,037 while the riding carts decreased by 432 during the year. Besides the above, all heads of cattle except asses and mares showed a slight decrease during the year.

5. Breeding Operations.

Camel breeding.

12. There were 233 camels at the beginning of the year, to which were added 21 born during the year, thus making the total of 254. From these 14 were given as presents and 4 died, the number remaining at the close of the year being 236.

Mule breeding.

13. There were 101 mules and mares in Vagjai and Raibag paddocks in the biginning, to which 40 mules and mares were added and there were 17 births during the year, thus bringing the total to 158. Of these, 16 died and 50 were transferred to khasgi paga during the year, leaving a balance of 92 at the close of the year, of which 42 were mules and 50 mares.

Weather and crops.

14. The monsoon set in rather late after the middle of June, but the first rain-fall was just sufficient for sowing purposes. The rains in the first two weeks of July being timely and sufficient enabled the kharip crops to grow. The month of August passed away without heavy rainfall and all the principal kharip crops prospered. The cultivation of cotton was exceptionally heavy and it is believed that this year the cultivators in general have been able to secure an exceptionally heavy out-turn. The fall in September gave a good start to the sowing of rabi crops which flourished under the favourable rains of October, but they did much damage to standing crops. The fall in November was excessive, which spoiled both kharip and Rabi crops except cotton, sugar-cane and gram. On the whole the season was a fair one.

Rain-fall.

15. There was an abnormally heavy rainfall at Kolhapur measuring 57.7 inches against 43,82 inches of the last year and against 46.7 inches of the average of the past five years. All the stations in the Kolhapur State received more rain during the year than that of the preceding year. The highest rainfall recorded in the State was 295.7 inches at Bavada and the lowest at Shirol being 33.82 inches. The greatest rainfall in 24 hours was 9.11 inches at Bavada on the 5th August 1916.

Temperature.

16. The mean temperature of the year was 68° against 77° last year. The highest temperature recorded during the year was 102° on 2nd May 1916 and the lowest was 45° on 26th December 1916. The corresponding figures of the last year were 95° on 12th April 1915 and 44° on the 6th December 1915. The mean maximum and minimum temperatures in the shade were 100° & 67° against 69° and 57° last year respectively.

6. Prices.

17. At the time of harvest jwari, bajri, gram and tur were sold at a somewhat lower rate, but the price of these showed an upward tendency

from the very next month. The price of gram and wheat ruled higher owing to their demand in foreign markets while rice kept up the rates of the previous year. The price of tobacco rose by 25 percent as the later rains did great damage to the crop. Owing to the keen demand in the foreign markets, the price of cotton rose enormously. The out-turn of Jagree was better, but it maintained the same rate as last year.

Prices.

18. Wages for skilled and unskilled labour remained the same as last year. When for a time, the demand for labour was above the normal, the wages rose a little higher but ordinarily there was no change. On an average wages for unskilled labour were about 6 annas and for skilled labour annas 12 per diem. The demand for labour is large, while the supply is small. Owing to this, the condition of the labouring classes is very good.

Wages.

8. Forest.

Forest Area

19. The total area of reserved and protected forest during the year was about 489 square miles against 491 last year. The decrease was due to the sale of some of the lands in Karvir peta which were fit for cultivation. The amount realized from the sale of these lands was Rs. 1,02,623.

Offences.

20. The number of forest offences showed an increase of 33 during the year over the last year's figure, which was 95. The amount of fine imposed also rose from Rs. 933 to Rs. 2,035. Out of 128 offences, there was only one prosecution and the rest were decided departmentally. In the criminal case the offender was fined Rs. 50.

Fires.

21. There were 9 fires of small importance during the year against 12 last year. The area burnt during the year decreased from 777 acres to 509 and the estimated damage from Rs. 17 to Rs. 15.

Free grant of timber.

22. The value of timber given gratis increased from Rs 1,301 to Rs 1,337 during the year.

Plantation.

23. The tea plantation at Nandgaon was discontinued as it did not fare well. The condition of the aloe plantation was satisfactory, but owing to war, there is no demand for the aloe fibre.

Hirda.

24. Owing to heavy rains in the months of October and November, this year's Hirda crop was much damaged. 17,742 khandis of Hirda were produced this year against 18,047 khandis last year showing a decrease of 305 khandis. But the revenue from its sale increased from Rs 1,36,771 to Rs 1,58,919, which was due to an increase in the selling price. The expenditure incurred for collecting Hirda and bringing it to Kolhapur Railway Station decreased from Rs 81,875 to Rs 81,136. The decrease was due to the reduction in the carthire rate.

Grazing.

25. 45,673 animals took advantage of the State forest during the year, against 28,664 in the preceding year and the fees derived from the grazing of these cattle were Rs 7,649 against Rs 5,849 showing an increase of Rs 1,800. Among 45,673, goats and sheep numbered 28,988 and cows and oxen numbered 16,685.

26. The total receipts from forest revenue decreased from Rs 2,12,893 to Rs 1,26,865 while the expenditure increased from Rs 57,383 to Rs 1,43,218 during the year. The decrease in the revenue is only nominal and was due to non-adjustment of the amount received from the sale of Hirda during the year. The increase in the expenditure was due to some of the amounts of the last year being brought to account during the year.

9. Public Works.

Public works.

27. The amount spent on Public works during the year decreased from Rs 3,78,984 to Rs 1,45,497. The decrease in expenditure was due to some of the payments of the bills being not made during the year, besides the amount spent on original and repair works was less than that of the previous year. The expenditure on original works came to Rs 47,572 against Rs 1,75,811, on repairs to Rs 54,425 against Rs 1,34,398 and on establishment charges to Rs 29,445 against Rs 25,165. ON THE

GENERAL ADMINISTRATION

OF THE

KOLHAPUR STATE

FOR THE YEAR

1917-1918.

Kolhapur,

PRINTED AT THE " *JAINENDRA* " PRESS.

KOLHAPUR.

1918.

In rounding off figures in several places fractions exceeding one-half have been reckoned as equivalent to one and those equal to or less than one-half have been left out of consideration; in consequence, a slight discrepancy may sometimes occur in additions and subtractions, especially in the case of sums of money.

exercised these powers to the entire satisfaction of His Highness. They took keen interest in the matter of obtaining recruits for military service, and the signal success, which the State has attained in this respect, was in a large measure, due to their efforts.

4. His Highness' Movements.

7. His Highness paid visits to Bombay, Poona, Indore, Baroda, Amboli, Jamkhandi and also toured through some districts of the State. His Highness visited Delhi thrice in connection with the conferences. During the first visit His Highness was accompanied by Shri Yuvaraj Rajaram Maharaj. 6. Important Events.

War.

10. This state has done its utmost to render its humble aid on the side of the British Empire in the great European War which seems to enter on the fifth year of its existence. His Highness is more than anxious that at this critical period of the struggle all the resources of the State should be at the disposal of the Imperial Government.

Our day Fund.

11. The 'Our day' was celebrated on 12th December 1917 in Kolhapur itself. The idea was originally started by their Excellencies Lord and Lady Chelmsford to help the wounded in Mesopotamia. A committee was formed with Colonel F. W. Wodehouse C. I. E. Resident Kolhapur and Political Agent S. M. C. and H. H. as patrons, Shri Yuvaraj Rajaram Maharaj as President, Shri Shivaji Maharaj as Vice-President, Meherban Pirajirao Bapusaheb Ghatge C. S. I., C. I. E. as Secretary & Mr. B. V. Jadhav, M. A., LL. B., as Joint-Secretary.

12. The committee arranged sports and ammusements which were subscribed to by the public in aid of the Fund.

13. The celebrations began in the morning of 12th December with a sham-fight of the Kolhapur Infantry. Colonel Wodehouse, the Resident himself commanded and the finish was very exciting and provided instructive amusement to thousands of spectators who subscribed to the Fund. Afterwards Tonga, pony and cycle races were held and prizes were given to the winners. In the afternoon wrestling matches and elephant fighting took place and at night there were dramatic and cinema performances.

14. The Our Day Fund amounted to Rs 14,608, of which Rs 443 were expended and the remaining amount Rs 14,165 was remitted to the Chairman Collection Committee Bombay, through the Resident.

15. Special measures have been adopted to encourage the enlistment of recruits both combatants and non combatants The working of the several measures was entrusted to Yuvaraj Shri Rajaram Maharaj, Shri Shivaji Maharaj & Meherban Pirajirao Bapusaheb Ghatge, who did it with great zeal and energy. A special staff was appointed for the purpose and liberal concessions held out and facilities afforded to recruiters and recruits. A sum of Rs. 34.000 was spent to meet all expenses during the year. To the end of the year 1,256 recruits were sent for enlistment A local depot has been recently opened and arrangements are being made to form one battalion. Recruiting.

16. 11 convicts from this State were sent to join the Labour corps in Mesopotamia and 12 were enlisted as recruits by order of H. H.

17. In view of the abnormal rise in the prices of commodities of general use and to keep pace with the altered circumstances engendered by the world war, His Highness was pleased to create the office of the Controller of Prices with necessary staff and to pass rules in connection with the controlling of prices of food grains and certain articles so as to check profiteering. Controlling of Prices.

18. The prices, in Kolhapur, of articles especially those obtained from foreign parts are generally governed by prices ruling in Bombay. The articles, the prices of which could with comparative ease be controlled were Kerosene oil and fuel. Their prices were fixed and were notified in the State Gazette.

19. A grain committee was appointed to suggest means to control the prices of food grains and to fix the rates, and it was considered inadvisable to fix the rates of chief food grains as their supply depended on many independent factors. The committee suggested that the Darbar should open a grain shop for purchasing food grains and selling the same to the poor at cheaper rates. The suggestion met with the approval of H. H. who was pleased to sanction a sum of a lakh of rupees for the purpose. Accordingly a shop is opened and grain is selling there at cheaper rates. It is satisfactory to note that the shop has the desired wholesome effect in somewhat steadying the prices of food-grains in the market.

20. The memorable events of the year under report were the celebration of the marriages of the two Princes Shri Shivaji Maharaj and Shri Yuvaraj Rajaram Maharaj. The marriage of Shri Shivaji Maharaj withJa manabaisaheb, the daughter of Meherban Shankarrao Jagtap of Saswad was celebrated at Kolhapur on 6th June 1917 The marriage of Shri Yuvaraj Rajaram Maharaj with Rajkumari Indumati-Devi, grand-daughter of H. H. the Maharaja of Baroda took place at Baroda on the 1st April 1918. A large assembly of princes, chiefs and other distinguished guests were present on the occasion. H. H. the Maharaja of Indore including the Honourable Mr. Charmichael, Member of Council, Mr. L. Robertson, Political Secretary to the Government of Bombay and the Rajesaheb of Mudhol graced the occasion. Marriages.

21. The bride, the bride-groom and party arrived at Kolhapur on the 8th April 1918 and made their entry into the town in a grand procession. The town was full of rejoicings and enthusiasm and people turned up in large numbers to have a glimpse of the noble couple. They were seated in the

elephant car which was stopped at every stage by crowds of people who showed their affection by greetings and loud cheers. They received pan-supari and every other mark of respect from public institutions as well as private individuals. The Station compound and the route of the procession were illuminated. There were general illuminations also all through the town.

7. General Review.

22. In the first week of June, there was fairly good widespread rain which afforded sufficient moisture for the starting of agricultural operations. Thereafter there was a break of about a week's duration Afterwards till the end of July there were rains off and on, which fairly secured the Kharip crops. The fall in August was very opportune and Kharip crops throve well. The September rain gave a good start to the sowing of rabi crops. The fall in October was excessive and thereby almost all the Kharip crops suffered to some extent. The fall in November at the time of harvest injured the Kharip crops and also checked the growth of rabi crops from excessive moisture. In fact a wet famine threatened and anxiety was relieved only by the revival of certain rabi crops and cotton in most areas, which owing to high prices saved the situation, enabling the cultivators to pay State dues and maintain themselves. The stress was generally felt by the middle classes Wages were high and labour was much in demand. The labouring classes were tolerably well off. The condition of agricultural stock was satisfactory and there was no scarcity of fodder. There was a decrease in the number of civil suits and registration transactions. The general health was not very satisfactory as mortality showed a slight increase. On the whole the season was a fair one.

In July the rain was timely and well distributed and it enabled the completion of Kharip sowings. The rain in August was opportune and it helped the Kharip crops to flourish. The September rain gave a good start to the sowing of Rabi crops. Untimely rain in October however proved injurious to the ripening rice crops in the Konkan. The fall in November at the time of harvest did much damage to standing crops. Jwari and Bajri also suffered to a great extent. The Kharip as well as Rabi crops were not therefore in good condition and consequently yielded but a fair harvest. The general character of this year's season may be considered fair on the whole.

The expenditure incurred for collecting hirda and bringing it to Kolhapur railway station increased from Rs. 81,136 to Rs. 86,140. The increase in expenditure was partly due to an increase in the cart-hire rate during the year.

The increase in exports is largely accounted for by Jagree. Among the imports grain shows a considerable increase of 3,01,571 maunds which is chiefly due to the season being not good. Next comes salt with an increase of 18,258 maunds which is due to the rise in the prices. The third place is occupied by coal in which an increase of 35,216 maunds is returned. The import of oils also increased from 61,292 maunds to 72,538 maunds during the year. The chief articles showing decreased import include refined sugar, metals & mineral substances. The decrease in all these articles is chiefly due to the prevalence of high prices consequent upon the War.

Huzur treasury.

3. The total receipts and disbursements including adjustments in the Huzur treasury amounted to Rs 79,06,526 and Rs 99,91,959 against Rs 63,39,268 and Rs 58,17,046 last year respectively. The cash balance in the treasury at the close of the year was Rs 3,71,062 against Rs 10,55,295 last year. The decrease in the closing balance was due to the purchase of G. P. Notes came to Rs 1,61,204 during the year.

1. Gross Revenue.

Receipts.

5. The Gross revenue of the current year was Rs 70,09,206 against Rs 65,36,947 last year. The net revenue of the year excluding debts, deposits and alienations came to Rs 31,04,610 against Rs 29,57,849 showing an increase of Rs 1,46,761. The aggregate total of increases in various heads of receipts over that of the previous year amounted to Rs 3,17,800 and of decreases to Rs 1,71,000 giving a net increase of Rs 1,46,800. The heads under which there was an increase over the realisations in the year before were (*a*) Land Revenue Rs. 23,800 (*b*) Excise Rs 1,36,000 (*c*) Extraordinary receipts Rs 1,58,000. The increase under the head Land Revenue was due to the collections of arrears, that under Excise to the enhancement of duty and that under Extra-ordinary

receipts to larger receipts on account of Sheri lands, interest, railway &c. The heads under which there was a considerable decrease were (*a*) Forest Revenue Rs 36,500 (*b*) Stamp Rs 7,000 (*c*) Law and Justice Rs 20,000 (*d*) Jail Rs 1,000 (*e*) Receipts under other heads Rs 1,06,500. The decrease under Forest revenue, Law and Justice and Receipts under other heads is only apparent and is attributable to the adjustments of arrears of the heads mentioned in the last year, that under Jail to less receipts from prison labour and that under stamp to less receipts from the sale of the court fee stamps during the year.

This excess in expenditure was chiefly seen under heads (*a*) Capital account Rs 16,79,900 (*b*) Khasgi Rs 2,69,500 (*c*) Shri Shahu mill Rs 1,47,500 (*d*) War bonds Rs 12,500 (*e*) Religious charges Rs 88,400 and (*f*) Registration Rs 19,000. Sums standing upto this time to tasalmat account were transferred to the new heads of accounts which were newly opened this year namely Shri Shahu mill and War bonds. The amount of Rs 16,79,900 spent for the purchase of G. P. Notes, which had hitherto been included in cash balance was invested in the Capital account which was newly opened. From the above it will be seen that the new heads of account are resposible for an increase in expenditure. The rise under Khasgi was due to the marriages of Shri Yuvaraj Rajaram Maharaj and Shri Shiwaji Maharaj and that under Religious charges and Registration was due to the payment of arrears of Mahal Majkur and subscriptions. There are some other items showing decreases & increases in expenditure, which being minor ones need no explanation.

10. The Co-operative Movement Legislation.

13. The Government of India passed the Co-operative credit Society's act in 1904 and Societies began to work there satisfactorily. The introduction of the act was under consideration here and the new Act II of 1912 was introduced *mutatis mutandis* from 1st June 1913 (vide State Gazette page 125 dated 31-5-1913 and page 177 dated 19-7-1913.)

14. Rules under the act:-The new rules passed by the Bombay Government and published in the Government Gazette of 2 nd July 1918, were adopted (vide State Gazette part I Page 163 dated 9-11-18).

15. This has made the arbitration procedure applicable in the case of disputes with recalcitrant debtors and recoveries will, it is expected, be more prompt.

16. Immoveable property of a debtor, unless specifically mortgaged is not liable to be sold in the execution of decrees under circular orders of long standing. The credit of an agriculturist debtor is thus very low and he is obliged to mortgage it specifically. The D. A. R. A. (Bombay act XVII of 1879.) contains a similar provision in the interests of the agriculturists.

17. His Highness the Chhatrapati Maharajasaheb was pleased to rule that these old circular orders exempting the sale of immovable property in the execution of money-decrees, were inoperative in the case of members of Co-operative Societies registered under the Act. (vide खट नं० ३८. २४६।४८ and ५, १८८६ published at page14 & 15 of the Kolhapur State Gazette part I dated 2-2-18).

18. This has considerably raised the credit of the members and the Urban Society can now finance the village Credit Societies to a greater extent.

19. His Highness the Chhatrapati Maharajasaheb has granted to the co-operative Societies the same concessions as to the exemption from the operation of the Stamp Act and the payment of fees for the registration of documents passed by or to a Co-operative Society. His Highness has been further pleased to exempt all the societies from the payment of the education cess, (vide State Gazette part I dated 3-8-18 at page 115.) which a money lender has to pay and has also exempted the Societies from the obligation of getting their books stamped at the registration offices.

20. By order under ख. अर्जी No. 878 dated 23-10-18 published at page 168 of the State Gazette part I dated 9-11-18 secretaries of Co-operative Societies are allowed to see free of charge the indexes in registration offices to ascertain the previous incumbrances on the property of a would be-debtor or one to whom a loan is to be given.

21. Rao Bahadur M. G. Dongre B. SC., L. C. E. Educational Inspector is also the Registrar of Co-operative Societies in Kolhapur Proper.

22. Rao Saheb Kale of Hadapsar, Rao Saheb Jagtap L. C. E, M. R, S. I. Messrs L. G. Gokhale, auditor of Co-operative Societies, R. N. Rajadnya Honorary Organisor and President, Yelor Union, G. N. Kulkarni, Assistant Honorary Organisor Tasgaon and B. J. Patil Assistant Honorary Organisor of Shirala, have by their lectures on Co-operation created jenuine interest among the agriculturists and the educated classes. The movement has thereby made a successful beginning.

23. On the 30th of September 1913 was registered the Kolhapur Urban Co-operative Society limited, the first Society in the State. It has achieved considerable success in its career of five years. The number of Members is 777 and the share capital amounts to Rs 6,810. The reserve fund is Rs 5786 and the working capital amounts to Rs 1,03,348. It has commenced to finance other Societies in the State and the management is eager and ready to help co-operation even outside Kolhapur territory. Thus in all Rs 9,520 were lent to six societies in Walva Taluka of the Satara District, on the security of Warbonds. Of the sum advanced Rs 2,933 were returned and Rs 6,587 are still outstanding. Nine Co-operative Societies within the Kolhapur limits were lent Rs 25,302. The sum of Rs 11,822 of this is erturned and the outstading balance is Rs 13,480. The Urban Society is thus discharging to a certain extent the duties of a Central Co-operative Bank.

24. The number of societies registered is 26 of which the Kolhapur Urban State servants, Manure society and Co-operative store Society are limited liability societies and in the remaining 22 societies, the liability of members is unlimited. The members of 18 of these are mainly agriculturists. Those of three other are partly agriculturists and one viz. the Potters society contains no member who carries on agriculture.

25. Mr. Ewbank I. C. S. Registrar of Co-operative Societies Bombay Presidency has kindly included the Kolhapur Urban Society in the list of societies to be audited by the Government auditor. This audit by an expert is sure to improve the working of the society. (vide G. R. No. 9,540 of 16-7-18 in the Bombay Government Gazette.

26. In consideration of the good work the Urban Society has been doing among the Bhangis and other poor employees of the municipality. His Highness has kindly advanced Rs. 1,000 free of interest to the society and has also allowed the Municipality to lend sums of money to the society on the security of Government papar at 2¼%. This has materially contributed to the success of the society and has allowed the society to transact current account business.

27. The Bombay Central Co-operative Institute has recognised Kolhapur as one of the centres for the secretaries training class and a class was accordingly held here from the 16th to the 25th of September. The number of students was 123 of which 28 passed the examination. The class admitted secretaries not only from Kolhapur and its feudatory Jahagirs but also from Southern Maratha States and Aundh and the Districts of Satara & Belgaum. The class was opened by Lieut: Colonel C. S. Campbell I. C. S. and Messrs. Gonehalli, Assistant Registrar Poona, R M. Sane, Divisional Organiser C. D. and R. B, Naik, Divisional Organiser S. D. gave lectures in connection with it.

28. His Highness the Chhatrapali Maharajasaheb was pleased to order to lodge and board all the candidates and the lecturers as state guests.

29. A Co-operative drama in Marathi was staged in connection with the class.

30. The members and the working captal of all the above Societies were 968 and Rs 3,35,557 respectively during the year ending 31st March 1918.

31 There are 2 school boys' societies for selling stationery and books to their members. These are unregistered.

32. The Co-operative movement is spreading into Feudatory Jahagirs also.

33. Kagal has two flourishing societies, one Kagal servants Co-operative Society limited and the other Kagal Town Co-operative Society unlimited with a capital of over Rs 5,000. Ichalkaranji has some societies which are in a good condition for which no information is available.

REPORT.

ON THE

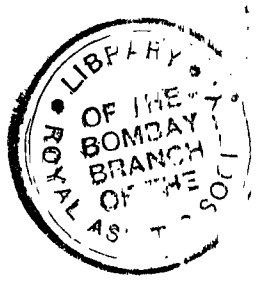
GENERAL ADMINISTRATION

OF THE

KOLHAPUR STATE

FOR THE YEAR

1918-1919.



RAJ SHAK. 245.

Kolhapur.

PRINTED AT THE "*JAINENDRA*" PRESS.

KOLHAPUR.

1919.

In rounding off figures in several places, fractions exceeding one-half have been reckoned as equivalent to one and those equal to or less than one-half have been left out of consideration; in consequence, a slight discrepancy may sometimes occur in additions and subtractions, especially in the case of sums of money.

The Kolhapur State lies between 17° 10′ 45″ and 15° 50′ 20″ north latitude and 74° 44′ 11″ and 73° 42′ 10″ east longitude and is bounded on the north by the river Warna, which separates it from the British District of Satara, on the north-east by the river Krishna, on the east & south by the District of Belgaum and on the west by the Sahyadri mountain, which divides it from Savantwadi on the south-west and Ratnagiri on the west.

Revenue.

4. The total gross revenue based on the average of the past five years amounts to Rs. 53,23,487.

2. Administration.

His Highness' Rule.

5. His Highness Colonel Shri Shahu Chhatrapati Maharaja, G. C. I. E., G. C. S. I., G. C. V. O., LL. D., M. R. A. S., Maharaja of Kolhapur completed the 25th year of his rule on the 2nd April 1919, and on the 26th June 1919 will complete the 45th year of his age. The powers of His Highness are absolute and His Highness' authority is supreme & final in the State. The State is not tributary but constituted an integral part of the Maratha Empire, till the Warna Treaty, concluded in 1731 A. D. between the grandsons of the Great Shivaji, raised it to an independent sovereignty. Till then Kolhapur was merely a provincial town of the Satara Gadi. His Highness is entitled to a personal salute of 21 guns, and the hereditary salute of 19 guns.

3. His Highness' Household.

His Highness' Household.

6. The year under report opened with festivities in connection with the marriage of Shri Yuvaraj Maharaj on the 1st of April 1918. The subject was fully dealt with in the last year's report.

7. The saddest incident in the annals of the State, is the sudden and premature demise, on the 12th of June 1918, of His Highness' Younger Son, Shri Shivaji Maharaj by an accident, while hunting in the jungles near Kumbhoj, about 20 miles from Kolhapur. The cruel hand of death cut short a career full of promise, thus plunging His Highness & his whole Family, as also the numerous subjects of the State, into the deepest grief.

8. All the other members of His Highness' Household were in good health during the year.

9. His Highness Shri Yuvaraj Rajaram Maharaj made considerable progress in the administrative work entrusted to him, He has devoted himself to it with great zeal & energy and takes keen and intelligent interest in the departments he is solely put in charge of.

4. His Highness' Movements.

His Highness' Movements.

10. His Highness paid several visits to Miraj, Poona and Bombay and also visited Bhavangar, Rajkote, Navasari, Gwalior, Agra, Muttura, and Delhi.

11. His Highness attended the War Conference held in Bombay on 11-6-18 and presided over a Public Meeting of the "Backward classes" on the 10th November 1918. In his visits to Navasari, His Highness presided over a meeting of the "Arya Samaj" held there on the 14th December 1918.

12. His Highness had been to Delhi twice. In his first visit His Highness attended the War Conference in the month of April 1918 and in his second visit in January last, His Highness attended the annual Princes' Conference and had an opportunity of taking part in the discussion of the Montagu-Chelmsford reforms.

13. His Highness also toured through some districts of the State where he comes in direct touch with his subjects and gains knowledge at first hand of their wants and grievances.

5. Visits of Distinguished Personages.

Visits of condolence

14. Visits of condolence were paid to His Highness by—

(i) His Highness the Maharaja Gaikwad of Baroda
(ii) His Highness the Maharaja of Bhavanagar
(iii) His Highness Pant Sachiv, Chief of Bhor
(iv) Her Highness the Ranisaheb of Akkalkote
(v) The Chief of Miraj and many other Chiefs, Sardars and Jahagirdars.
(vi) Deputations from Baroda, Dewas and Indore also waited on His Highness with a view to express condolence for the sad demise of His Highness' Younger son the late Shri Shivaji Maharaj.

15. His Excellency. Lord Willingdon, Governor of Bombay, visited Kolhapur on 18-7-18 to preside over a Recruiting Meeting held in the Palace Theatre, which was a great success.

Recruiting.

16. At first Recruiting work was carried on by Regimental Parties, single-handed, under the supervision of British Officers. But it was afterwards found advisable to secure the co-operation of the local Civil authorities-a measure which was promptly adopted. But this did not much improve matters. Meherban Pirajirao Bapusaheb, Jahagirdar of Kagal Senior was, therefore, entrusted with the work. He took it up whole-heartedly and with his usual energy and zeal, laboured night and day and achieved splendid success. Several Arbitration Courts to summarily decide matters of a judicial nature were opened. This gave no small stimulus to the recruiting work. In February 1918 the work of arbitration was handed over to Shri Yuvaraj Maharaj and his brother the late lamented Shri Shivaji Maharaj. They followed suit with the result that the total number of recruits enlisted came to 1926. The expenses incurred by the Durbar in this connection, amounted to Rs. 80,000 all told.

17. Besides this Rs 39,527 were collected by voluntary subscription for the purchase of 5 Ambulance cars to be presented to Government. The Darbar contributed a sum of Rs 82,739 to Imperial War Relief Fund, Rs 16,147, to Womens' Branch, Rs. 14,731 to Our day Fund, Rs. 8,174 to Silver Wedding Fund & Rs. 6,024 to Lady Willingdon War Relief Fund. His Highness also contributed some articles etc. of the value of Rs. 5,318 to the War Fete Bombay & Rs. 1,000 to the Lucky bag at Hydrabad opened by Lady Fraser. In addition to this, the Kolhapur Darbar purchased war bonds of the value of Rs. 5,54,200 & the Kolhapur public took up the War loan of Rs. 13,80,417 thus the total War loan purchased by the Kolhapur State amounted to Rs. 19,34,617

Controlling of, Prices.

18. Kolhapur can hardly be called a self-contained province as regards food grains. Even in normal years it requires the importation of 6,00000 Bengal Maunds of food stuffs. During the year 1918 of which the first few months were not affected by the scarcity of rain, the imports of food-stuffs amounted to 6,92,005 Maunds.

19. The Control over imports and exports of food grains and other articles such as kerosine, fodder etc. was exercised in the State generally in conformity with the spirit of the rules and regulations promulgated from time to time by the Government of Bombay. With a view to check profiteering, the system of issuing Licenses under the signature of the Controller of Prices to wholesale and retail dealers of grain was introduced in the State on the lines adopted in British Territory.

20. For the purpose of coping with the critical situation arising from the announcement of the Government of India that no waggons were available for the free carriage of necessaries of life owing to the growing demand for the Railway rolling stock on account of the prolongation of the World War, a meeting of the local merchants was held in the Town Hall on the 4th of September 1918 under the Presidency of the Acting Diwan. The whole situation was explained to them and they were asked to purchase food grains and keep as large stocks of them as they could, the Darbar undertaking to help them as far as possible by procuring Priority Certificates etc.

21. Subsequently a public meeting was held in the New Palace Theatre to consider the advisibility of purchasing food-stuffs through a Committee under the supervision of the Darbar. As a result of this meeting a body designated as "Kolhapur Food-Supply Association" was formed. Until the New Controlling Board was established, food-stuffs worth Rs. 4,92,407 in all, were purchased and Rs. 3,93,184 worth of them sold, thus leaving a balance of stocks worth Rs. 99,223.

Food-supply Association.

22. The Food-supply Association, at the beginning met almost daily and afterwards every saturday, the Vice President Sir Pirajirao Bapusaheb Ghatge evinced keen interest in the deliberations and work of the meetings.

23. Instead of relying on the mere reports of District Officers, he made several tours in almost all the Talukas and Mahals with a view to learn and ascertain at first hand the real condition of the people. The information thus gathered proved of immense value in locating the cheap grain shops and making allotments for them. In fact, it is not too much to say that almost the whole of the credit is due to him for making the scheme a success.

24. To prevent abuse on the part of merchants who were not slow to take advantage of the situation which had been induced by the cheap grain shops in regulating the prices, His Highness hit upon the expedient of forming a New Controlling Board which commenced its operations from the 22nd of May 1919 in lieu of the Kolhapur Food-supply Association.

6. Special Revenue Inquiry Bench.

Revenue Inquiry Bench.

25. One noteworthy feature of the year under report is the formation of this court. From inquiries instituted in the Arbitration Courts and elsewhere, it was brought to the notice of the Huzur that the Ryots had been fraudulently and dishonestly deprived by the Kulkarnis and their lands appropriated by them or others acting in concert with them. It was therefore thought necessary to form a Special Revenue Bench Inquiry Court with powers to do justice between the Ryots and the Kulkarnis. At first three members were appointed to constitute the Bench for a period extending over 6 months. 78 applications were received out of which 12 were disposed of, thus leaving a balance of 66. Fresh applications are pouring in and hence it was thought desirable to extend the term of this office to 6 months more.

26. This court has adopted an expeditious method of granting relief to the oppressed Ryots at considerably less expense than that incurred by the process of the ordinary civil courts. The less technical but practical procedure of this court has resulted in increased convenience to the parties and witnesses concerned.

7. General Review.

General Review.

27. The Monsoon broke out in June and the sowing of Kharip crops began in June and July in the western and eastern parts respectively. There were no August and September rains in the eastern part but in the western part, these rains some what improved the condition of Kharip crops. There were no October and November rains. Hence no Rabi crops were sown in the eastern part. At the time of harvesting the Kharip crops, the Influenza

Epidemic broke out through all the villages of the State and most of the cultivators were invalided and some of them fell victim to the Epidemic with the result that Kharip crops suffered very much. To add to this, Plague prevailed in some of the villages and consequently the Kharip as well as the Rabi crops were on the whole, far below the average. No Epidemic broke out among the cattle. The prices of staple food-grains remained as high as during the last year. As, however, high wages prevailed throughout the year, the condition of the labourers was, on the whole, tolerably well. No difficulty was experienced in collecting the Land Revenue. There was a decrease in the number of civil suits but increase in that of Registration transactions. The general health was far from satisfactory during the year. The Influenza Epidemic raged furiously and exacted a heavy toll of life. To sum up, the condition of the people was on the whole, fairly satisfactory.

Jagree is mainly responsible for the increase in exports. Among the imports grain shows an increase of 61,796 maunds during the year and this is due to the season being rather indifferent. The exports of oilseeds shows a decrease of 25,433 maunds from the last year's figure which was 2,65,934 maunds. There are other items on the export and import sides showing minor increases or decreases which require no explanation.

The aggregate total of increases in various heads of receipts over that of the previous year amounted to Rs. 10,60,907 and of decreases to Rs. 3,65,560 giving a net increase of Rs. 6,95,347. The increase under Excise revenue was attributed to more receipts from the auction sale of liquor shops under the Madras System recently introduced in the State and that under Stamp was due to more receipts from the sale of General and Court fee stamps. The increase under Extraordinary receipts was owing to the larger amounts of receipts from

railway, primary education cess and the dowry received on the occasion of the marriage ceremony of Shri Yuvaraj Maharaj, the heir-apparent, and sums adjusted in accounts in connection with the purchase of War loan, War bonds etc. The heads under which there was a considerable decrease were (*a*) Land Revenue, Rs. 62,260 (*b*) Forest Revenue, Rs. 1,21,158 (*c*) Law and Justice, Rs. 8,198 (*d*) Jail, Rs. 1,640 (*e*) Interest, Rs. 1,30,840 (*f*) Receipts under other heads, Rs. 41,464. The decrease under Land Revenue was due to less amount of revenue collections owing to famine and scarcity that prevailed throughout the year under report and that under Forest Revenue owing to the proceeds from the sale of Hirda not being received. The decrease under Law and justice was due mainly to less amount of fine levied during the year and that under Jail to less amount of receipts from prison labour. The decrease under Interest was due to the accounts not being yet settled.

There are some other items under the head Miscellaneous, which being minor, need no explanation.

2. Expenditure

The decrease under Shri Shahu Chhatrapati Mill was due to the fact that no advances were made to the Mill during the year. That under the head of Capital accounts was due to a smaller sum being deposited during the year. That under Huzur Khasgi Khate was due to the fact that no extraordinary expenses were incurred during the year in connection with marriages etc. as in the last year. That under Forest was due to the Hirda not being exported during the year. The rise in expenditure is seen under the heads (*a*) Revenue, Rs. 3,64,615 (*b*) Public Works Rs. 7,32,659 (*c*) Military, Rs. 64,369 (*d*) Other heads, Rs. 1,86,288. The rise under Revenue was due to the adjustment in accounts in connection with Revision Survey. That under Public Works was due to the adjustment in accounts in connection with Radhanagari Tank. That under Military and other heads was due to the additional expenditure sanctioned in connection with *Mahagai Bhatta* etc. There were other increases and decreases which being minor need no explanation.
